

DRY CONCENTRATION

Inventor of the "Crown" Process in Town.

PLANT FOR SALT LAKE

MAY MAKE THIS CITY A MANUFACTURING POINT.

Manager L. B. Doe of the Crown (dry method) Milling company of San Francisco, accompanied by the inventor, F. W. Wood, came in from the west yesterday afternoon and registered at the Knutsford. The gentlemen are here for the purpose of looking over the field with a view to establishing a branch house in this city, and it is not altogether impossible that the company may, in the near future, decide to make this its chief manufacturing center as well.

Discussing the proposition at the hotel last evening, Mr. Doe said he fully realized the importance of Salt Lake as a distributing point and a place where it would at least be generally convenient for mine owners to send their ores for demonstrative purposes. They intended, he said, to spend several days in the city and surrounding country, and he felt quite confident that a mill would be erected at some convenient point where producers could send their ores and witness the methods of treatment which the Crown process provides, at a fraction of the cost which trips and shipments to San Francisco would entail.

Mr. Wood, the inventor of the process which was described in these columns shortly after the return of Messrs. Flint and Mosby from San Francisco, has brought with him samples showing what the process can accomplish on different kinds of ores, and he listened to the gentleman describe the method by which results are accomplished in reality a treat. His samples of beach sand from Nome, which he exhibits in a long glass tube, will strike the expert in concentrating methods as being simply wonderful as a demonstration of what the Crown machines will do. The sample comes from sand worked over at Nome and shipped as ballast.

At one end of the tube is shown the sand as it comes and worth about \$1 per ton. It consists of a mixture of brown, ruby and black sand, the values being contained in the ruby and black. Next in the tube is shown the ruby and black sand separated from the brown, and the concentrated product, worth \$1,000 per ton, and below that the tailings.

The exhibit is a remarkable one, and that mining men will enjoy seeing it and listening to Mr. Wood's explanation of how results are accomplished can be safely guaranteed. The process named is that by which Messrs. Flint and Mosby are contemplating reducing May Day ores, and while negotiations are understood to be in progress between Mr. Doe and the gentlemen named, on that subject he declined to talk, their main object, he said, being to arrange for the introduction of a plant by which the ores could be practically demonstrated near to the great mining camps of this and adjoining regions.

TO SUE YANKEE FOR \$15,000.

Action Will Be Started By the May Day at Once.

It was learned at the offices of the May Day company yesterday that the papers have been prepared and that suit will more than likely be brought against the Yankee Consolidated today for \$15,000 damages for the loss of ores extracted from plaintiff's property. The action is the outcome of the Yankee management's failure to get to the front and settle the matter amicably.

The May Day attorney makes light of the declaration that the Yankee will fight the proposition on the ground that the latter has the apex, and says he is confident that nothing of the kind will be done. In the meantime two levels are being run off from the May Day mine, and the company is confident which the Yankee developed, and that from the tunnel level is now well advanced toward the objective point.

In addition the monster ore bodies in the old workings are being constantly opened up and put in shape for stopping with the outlook for the months and years to come looking brighter and better with every shot which is fired.

ANOTHER PARKITE FOR MEXICO

A. H. Lubeck to Superintend the Porral Milling Co.'s Works.

With a commission in his pocket which installs him as superintendent of the Porral Milling company's plant, at Porral, Chihuahua, Mexico, A. H. Lubeck, the well known Park City mill man, metallurgist and assayer, leaves for Mexico by way of Denver this morning.

The company whose employ Mr. Lubeck has entered upon is an eighty-ton concentrating mill and a new concentrator, a big roasting and leaching plant as well. This will be in commission by the end of the year, and the whole business will be under his supervision. The property is said to be a big one and is under the management of N. H. Emmmons. That Mr. Lubeck will prove a valuable acquisition to the company's staff goes without saying.

HIGHLAND BOY SHIPMENT.

The Smelter Forwarded 120,330 Pounds of Bullion Yesterday.

Two cars of copper-silver bullion, aggregating 120,330 pounds, were started for Perth Amboy yesterday from the Highland Boy (Utah Consolidated) smelter, the consignment completing the third car which has gone forward since the first of the month. A splendid tonnage is now being put through by Superintendent Wm. and all speed is being made to complete the "annex," which it is confidently expected will more than double the great plant's capacity.

BIG CRIPPLE CREEK DEAL.

The Portland and Other Properties Go to Britishers For \$15,000,000.

Denver, Colo., Nov. 7.—The Times says that the Portland mine, at Cripple Creek, has been sold to an English syndicate, including the Exploration company, the Ventura company and Verner-Belt & Co.

The price is given as \$15,000,000. A new company will be organized to take over the property, and its stock will be floated in London.

MONEY FOR LA SAL.

John McCain Interests Tennessee Capital in His Property.

Authentic information was brought up from the La Sal district yesterday by interesting Dr. Suddoth of Memphis, Tenn., in his La Sal Mountain property. The doctor has agreed to put \$15,000 into development work under McCain's supervision, and the first \$5,000 has been received. In addition to opening up his property, at which a force of men has already started, McCain has also about several men to work on S. N. King's toll road between Cisco and La Sal, and reports from the district are that the toll road is in good shape.

Cheap Clothes Sometimes Last Surprisingly long. But how do they look? Crescent Clothes For Boys.

IN SALT LAKE CITY—ONLY AT J. C. CROOKER'S, 136-138 MAIN ST.

the effect that late as the season is much activity is noticeable.

The La Sal country is scheduled for a boom and it now looks as though it would hit the camp before spring.

Ore and Bullion.

Ore and bullion settlements in this city yesterday amounted to \$77,555, as follows:

McCormick & Co., Mingo bullion, \$3,700; silver and lead ores, \$3,100. T. R. Jones & Co., ores, \$27,500; bullion, \$7,000.

Commercial National bank, ores, \$3,400.

Bamberger & McMillan, ores, \$6,555.

Various settlements, omitted in yesterday's issue, amounted to \$72,955.

Metal Market.

Silver, 63 1/2c per ounce.

Copper, 15 1/2c per pound.

Lead, A. S. & R. Co.'s price, \$4; New York exchange, \$4.37 1/2; New York brokers, \$4.

Mining Notes.

The Ophir Hill company sent in six cars of concentrates yesterday.

Two cars of ore from the Nast at Bingham reached the market yesterday.

The Shawmut of Bingham sent two cars of concentrates to market yesterday.

The Grand Central was in the market yesterday with three carloads of high-grade ore.

Messrs. Huck and Kimberley pulled out for the Annie Laurie at Gold Mountain yesterday morning.

The Centennial-Eureka company made settlements yesterday for ten carloads of silver-ore.

The directors of the Midas will meet on Friday and probably close a contract for the erection of the new mill.

The Conklin sampling works reported the receipt of four cars of ore from Bingham and one from Tintic yesterday.

The Taylor & Brunton sampler yesterday reported the receipt of six cars of ore from Stockton and three from Tintic.

Thomas Kearns is figuring on a consolidation scheme whereby the Sunbeam and El Rey properties may become one.

After casting his ballot on Tuesday, Thomas W. Jennings donned his "digging clothes" and took a train south for the purpose of visiting his Grand Gulch copper property in Mohave county, Arizona. He will be gone several days.

Four big deals in which W. F. Snyder & Co. are interested, and which have been at standstill for the past thirty days, began to show signs of life again yesterday, and talent from more than one direction is expected on the ground within the next few days.

Lafayette Holbrook of the Grand Central mine is expected to arrive here tomorrow.

Manager Morris Dusseldorf of the Comstock, who has been suffering greatly for several months with catarrh of the stomach and other complications, underwent an operation at the Holy Cross hospital yesterday morning.

Dr. Niles, assisted by Drs. Kerr and Whitney, performed it. Mr. Dusseldorf called nicely and the doctors have every confidence that he will come out all right.

Another whale of a strike below the 800 level of the Centennial-Eureka mine was made by a morning contemporary yesterday, and to give it weight the statement was made that the management of the mine had refused to "challenge the data" forming the basis of the disclosure. The ore down there is said to run \$50 in silver and \$28 in gold, with "a well-defined percentage in copper," so it is presumed that the mine is concentrating mill will not be needed for awhile.

Manager A. B. Lewis of the Imperial came up from Frisco yesterday morning and will be in town all week attending to matters connected with the different propositions in which he is interested. He brought some handsome specimens of copper ore from the Cactus and also from the winze in the Imperial, which is now down some seventy feet below the tunnel level. The gentleman is in receipt of advices from Chicago to the effect that the management of the old Rollins mine at Minersville have decided to resume operations in the very near future. Judge Shoup and Manager Mundy are therefore expected out within the next few days.

The Population of Salt Lake City

is about 65,000, and we would say at least one-half are troubled with some affection of the Throat and Lungs, as these complaints are, according to statistics, more numerous than others. We could advise all of them to take the opportunity to call on their druggist and get a bottle of Kemp's Balsam for the Throat and Lungs. Price, 25c and 50c. Trial size free. For sale by Godbe-Pitts Drug company, Salt Lake City, Utah.

Queen Appeals to Emperor.

London, Nov. 7.—The queen regent of Spain, says the correspondent of the Daily Express, has appealed to Francis Joseph to use his influence with Don Carlos to stop the Carlist uprising.

TAKE A RECORD.

See How Many Friends Are Hurt by Coffee.

It would be just as reasonable for a temperance advocate to drink a little diluted whisky as to drink coffee, for one is as truly an intoxicant as the other, and persistence in the use of coffee brings on a variety of chronic diseases, numerous among which are dyspepsia, heart palpitation (and ultimately heart failure), frequent urination, kidney diseases, many cases of weak eyes and trembling condition of the nerves.

This is only a small percentage of the great variety of diseases which come from an unbalanced nervous system, caused by the persistent daily use of the drug caffeine, which is the active principle of coffee. Another bit of prima facie evidence about coffee is that the victims to the habit find great difficulty in giving it up.

They will solemnly pledge to themselves any day that they will abandon the use of it when they know that it is shortening their days, but morning after morning they fail, until they grow to despise themselves for their lack of control.

Any one interested in this subject would be greatly surprised to make a systematic inquiry among prominent brain workers in America. There are hundreds of thousands of our most prominent people that have abandoned coffee altogether and are using Postum Food Coffee in its place, and for the most part excellent reasons for it. Many of them testify that ill health, nervous prostration and consequent inability to work has in times past pushed them back and out of their proper standing in life, which they have been able to regain by the use of good health, strong nerves and great vitality, since coffee has been thrown out and the Postum put in its place.

BUSINESS ON 'CHANGE

Following Election the Trading Was Quite Brisk.

TOTAL SALES, \$7,286.62

DAILY-WEST AND STAR CON. THE FEATURES.

The election over the stock exchange made a new start yesterday and transactions in Daily-West, together with Consolidated Mercantile, Eagle & Blue Bell, Star Consolidated, South Swansea and Lower Mammoth made the session take on a quite lively appearance. Yankees would use at the tail end with the sale of 100 shares at \$4c.

A bid of \$4.50 brought out 450 shares of Consolidated Mercantile and Daily-West went at \$2.50 and \$2.25, later being a five-day call, while Eagle & Blue Bell sold at \$2c and \$1c. Lower Mammoth sold at \$1c and \$1c. South Swansea was dropped at \$1.00.

Star Consolidated proved to be in favor and from \$2.50 and \$2.25, later being a five-day call, while Eagle & Blue Bell sold at \$2c and \$1c. Lower Mammoth sold at \$1c and \$1c. South Swansea was dropped at \$1.00.

The session closed on the following quotations:

Consolidated Mercantile, \$4.50; Eagle & Blue Bell, \$2.50; Star Consolidated, \$2.25; South Swansea, \$1.00; Lower Mammoth, \$1.00.

Consolidated Mercantile, \$4.50; Eagle & Blue Bell, \$2.50; Star Consolidated, \$2.25; South Swansea, \$1.00; Lower Mammoth, \$1.00.

Consolidated Mercantile, \$4.50; Eagle & Blue Bell, \$2.50; Star Consolidated, \$2.25; South Swansea, \$1.00; Lower Mammoth, \$1.00.

Consolidated Mercantile, \$4.50; Eagle & Blue Bell, \$2.50; Star Consolidated, \$2.25; South Swansea, \$1.00; Lower Mammoth, \$1.00.

Consolidated Mercantile, \$4.50; Eagle & Blue Bell, \$2.50; Star Consolidated, \$2.25; South Swansea, \$1.00; Lower Mammoth, \$1.00.

Consolidated Mercantile, \$4.50; Eagle & Blue Bell, \$2.50; Star Consolidated, \$2.25; South Swansea, \$1.00; Lower Mammoth, \$1.00.
